

Grading table Master Sustainable Business and Innovation (MMEA), Master Sustainable Supply Chain Analytics (MMEB), Master Consumer Studies (MMEC), Master Economics of Sustainability (MMED), Master Governance of Sustainability Transformations (MMEE) (MME) Transcript of records academic year 2025-2026:

The grading table requires universities to keep track of their grading practice and culture, which is good practice in many institutions across Europe. The ECTS grading table allows for simple, transparent interpretation and conversion of grades from one system or context to another, and therefore does justice to the level of academic performance of all learners. Used correctly, it bridges different grading systems as well as different cultures in the European Higher Education Area and beyond. The grading table gives the distribution of grades for this specific study period. It presents how many students (in percentages) receive a specific grade. This provides all necessary information to convert the grade in any local grading system.

National/Wageningen University Grade	#Number awarded in reference group	grading %*	cumulative % of the grades
10.0	38	01	01
9.5	121	02	03
9.0	441	07	10
8.5	899	15	25
8.0	1480	25	50
7.5	1313	22	72
7.0	946	16	87
6.5	428	07	94
6.0	330	06	100
TOTAAL	5996	100	

* Based on the grades of the last 2 academic years.
